

Techno News

Date set: R = 9th, O= 10th Dec, BG=7th, Hig=8th, Y=9th Jan,.

Date due: RO = 15th Dec, B=12th, G=13th, Hig=14th, Y=15th Jan

Introduction:

The task is first to choose a relevant article from a recent newspaper or journal, this can be accessed online. You will need to read the article through carefully and then summarize the article in 150 words or less. You could do this in rough in your exercise book first. You should also comment on why this article interests you and give your opinion of the article and/or its findings. Cite the article correctly in a bibliography. Your work should be word-processed and in good English. A photocopy of your article should be handed in with your work.

Rubric

Assessment area	Self	Peer	Teacher
In on time and article handed in (1)			
The article chosen is less than 2 years old and relevant to the “Structures, forces and motion” topic. (1)			
Summary is 150 words or less but covers the key points in the article. (3)			
The comment on the article says why the article was chosen and either says why it is of interest or gives an opinion about the article (bias etc.) or the product/process discussed. (2)			
Work is word-processed, spell check has been used and the use of grammar is good. (2)			
The article is cited correctly, including url/tinyurl. (1)			
Total (10)
